How to measure, and the printable ring scale, overleaf.

HOW TO MEASURE

Bracelets Wrap a tape or a piece of string around your wrist, just above the bone. Add 1.5 to 2 cm for comfort, then read your size from the table overleaf.

Necklaces Lay a string around your neck at the drop you want, mark where it meets and measure it. Compare that with the three lengths overleaf.

Rings Wrap a strip of paper around your finger and mark where it overlaps. Measure that length in millimetres: it is your inside circumference.

Between two sizes? Take the larger one.
